

KASPERSKY SMALL OFFICE SECURITY

WORLD-CLASS PROTECTION MADE EASY FOR SMALL BUSINESSES.

For your unique challenges: a unique solution. Powerful world-class protection that's quicker and easier than ever to use.

- Specially designed for businesses with 25 users or less.
- Easy to install and run — no training required.
- Web console for internet-based administration from anywhere.

NO EXPERIENCE NEEDED

Kaspersky Small Office Security is designed for even the most non-technical person to install and run with ease. It's packed with straightforward 'wizards' to automatically guide you through things like:

- Setup, including removing any existing anti-malware
- Setting the controls and choosing the policies that work best for you and your business
- Automatically downloading these changes onto several computers at once

Everything is administered through a web-based dashboard so that you, or anyone else you choose, can manage your IT security remotely through the internet.

Kaspersky Small Office Security delivers outstanding security, but runs so smoothly and efficiently in the background that you almost forget it's there.

MULTIPLE LAYERS OF PROTECTION

Kaspersky Small Office Security applies layer upon layer of protection to your PCs and Macs, servers, tablets and smartphones. All the security tools your growing business needs, and more, are included. You can trust Kaspersky Small Office Security to handle your IT security, leaving you free to run your business.

- Cloud-assisted, real-time protection from new and emerging cyber-threats.
- Secures Windows and Mac computers, servers and Android mobile devices.
- Award-winning 'Safe Money' safeguards on-line financial transactions from online hackers and identity thieves.
- Controls to let you manage employee web surfing and social networking.
- Encryption to protect confidential business and customer data.
- Anti-phishing technologies to protect against fake and malicious websites.
- Powerful spam filtering.
- Secure password management.*
- Automatic back-up of your data via Dropbox to prevent lost data.

HELPS SAVE YOU MONEY

As well as protecting against hacker attacks aimed at stealing your money, Kaspersky Small Office Security helps you keep your employees more productive by regulating their web access and setting controls on when they can surf or message. Advanced security features like encryption assure your customers that their data is safe in your hands, increasing your sales potential and customer satisfaction.
